Portfolio: www.KyleTelnes.github.io

OVERVIEW

Programming Languages: **C++, JavaScript, HTML, CSS, C#, SQL, ASM**

Applications: **GitHub, Docker, Ubuntu, Valgrind, Microsoft Applications, MongoDB, Heroku**

Professional Skills: **Open-Minded, Collaborative, Adaptive, Strong Work Ethic**

EDUCATION

Bachelor of Science in Computer Science (*Graduation expected 06/2023*)

Seattle Pacific University | (2019 – present)

- Relevant Coursework: Data Structures 1 and 2, Applications Programming, Linear Algebra, Netcentric Computing, Discrete Mathematics
- 3.75 GPA

WORK EXPERIENCE

Fred Meyer (*06/2020 – 09/2020*)

eCommerce Clerk | Bothell, WA

- Organized customer orders by time to expedite fulfillment and ensure on-time customer pickup.
- Fulfilled customers' online orders by quickly picking all requested items or providing a suitable substitute when out of stock.
- Provided excellent customer service while loading groceries into customers' cars.

PROJECTS

Hangman Game (*04/2021*)

- Designed and implemented a Hangman game with two categories to choose from.
- Created a responsive web application using Bootstrap and Node Express. Deployed it to Heroku.

Dungeons and Dragons Helper (Personal Project) (*04/2021*)

- Designed a C++ program to represent a Dungeons and Dragons character sheet.
- Implemented a way to update the character sheet with values that could be changed while playing.
- Implemented a combat encounter helper. Allows the user to input dice values or use a random number generator instead, calculating damage taken/dealt for them.

Library Database (*05/2021*)

- Built the front and back-end of a book database using HTML, CSS, MongoDB, Express, NodeJS, and deployed it to Heroku.
- Built back-end using REST API principles in mind. Able to add, delete, and update books in the database.

ACCOMPLISHMENTS

- On the Seattle Pacific University's Deans List for 5 quarters
- Group Leader for SPU Orchestra Online Bluegrass Music Workshop
- Principal Cellist for Bothell High School Orchestra
